

Prompt: Start a New Book

Use this prompt (or a variation) to kick off a new book with your agent.

Copy and paste to your agent:

new book: [Book Title] by [Author Name]

I'm starting this book and want to process it chapter by chapter as I read.

Please:

1. Confirm the book details (title, author, subject/genre)
2. Set up the book folder at books/[slug]/
3. Create 00-book-overview.md with what you know about this book
4. Create an empty master-summary.md ready to be filled
5. Tell me you're ready for Chapter 1

Book file (if I'm uploading): [attach PDF / EPUB / TXT]

Example:

new book: Thinking, Fast and Slow by Daniel Kahneman

I'm reading this as a physical book. I'll paste chapter text as I go.

Please set everything up and tell me when you're ready for Chapter 1.
